EDUCATION

Sri Krishna College of Technology <i>B.Tech Information Technology</i> CGPA: 8.1	Coimbatore, India 2022 – 2026
Bharathi Vidya Bhavan Metric Higher Secondary School <i>Higher Secondary Certificate (HSC)</i> 93.33%	India 2022
The BVB School <i>Secondary School Leaving Certificate (SSLC)</i> 92.60%	India 2020

EXPERIENCE

Cognizant Technology Solutions <i>Full Stack Intern</i>	Chennai, India Feb 2026 – May 2026
- Built and delivered 10+ full-stack features across enterprise web application modules using Angular (TypeScript) and Spring Boot in a production environment. - Developed and integrated 15+ RESTful APIs with Spring Boot, handling database operations in MySQL to support enterprise-grade business workflows. - Implemented frontend enhancements, form validations, and responsive UI components, improving usability and application performance. - Participated in Agile sprint cycles, daily stand-ups, code reviews, and collaborative development with cross-functional teams to ensure timely feature delivery.	

PROJECTS

OmniOrderX – Order Management System <i>Angular, Spring Boot, Node.js, MySQL</i>	2025
- Designed and developed a full-stack Omni-channel Order Management System supporting inventory management, order fulfillment, payment processing, and return workflows. - Implemented 15+ RESTful APIs using Spring Boot, integrated JWT-based role-based access control (RBAC), and developed real-time operational dashboards for business monitoring and reporting.	
Pet Adoption Platform <i>React.js, Node.js, Express.js, MySQL</i>	2024
- Developed a responsive full-stack web application enabling users to browse pet listings, filter by category, and submit adoption requests with status tracking. - Built and integrated RESTful APIs using Node.js and Express.js with MySQL to manage pet records, user profiles, and adoption workflows efficiently.	
AI Chatbot <i>Python, Flask, OpenAI API</i>	2024
- Built a conversational AI chatbot using Python and Flask, integrating the OpenAI GPT API to deliver context-aware and multi-turn dialogue responses. - Designed a RESTful Flask backend with session management and developed a lightweight user interface to provide a seamless conversational experience.	

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks: Spring Boot, Angular, React.js, Flask, Bootstrap
Databases: MySQL database
Tools: Git, GitHub, Postman, VS Code
Concepts: REST APIs, JWT Authentication, Role-Based Access Control (RBAC), Object-Oriented Programming (OOP)

CERTIFICATIONS

- NPTEL: Programming in Java
- NPTEL: Introduction to Industry 4.0
- Coursera: Introduction to Java
- Coursera: Python Basics
- Coursera: AI for Everyone
- ServiceNow: Micro Certification

ACHIEVEMENTS

- Competed in HackVega Hackathon (HirePro), building a working software prototype under a time-constrained environment.
- Presented a research paper on Artificial Intelligence applications at the National Technical Symposium, Kongu Engineering College (KEC).
- Secured Top 10 position in OneVarsity IQ League, a nationwide technical quiz competition.
